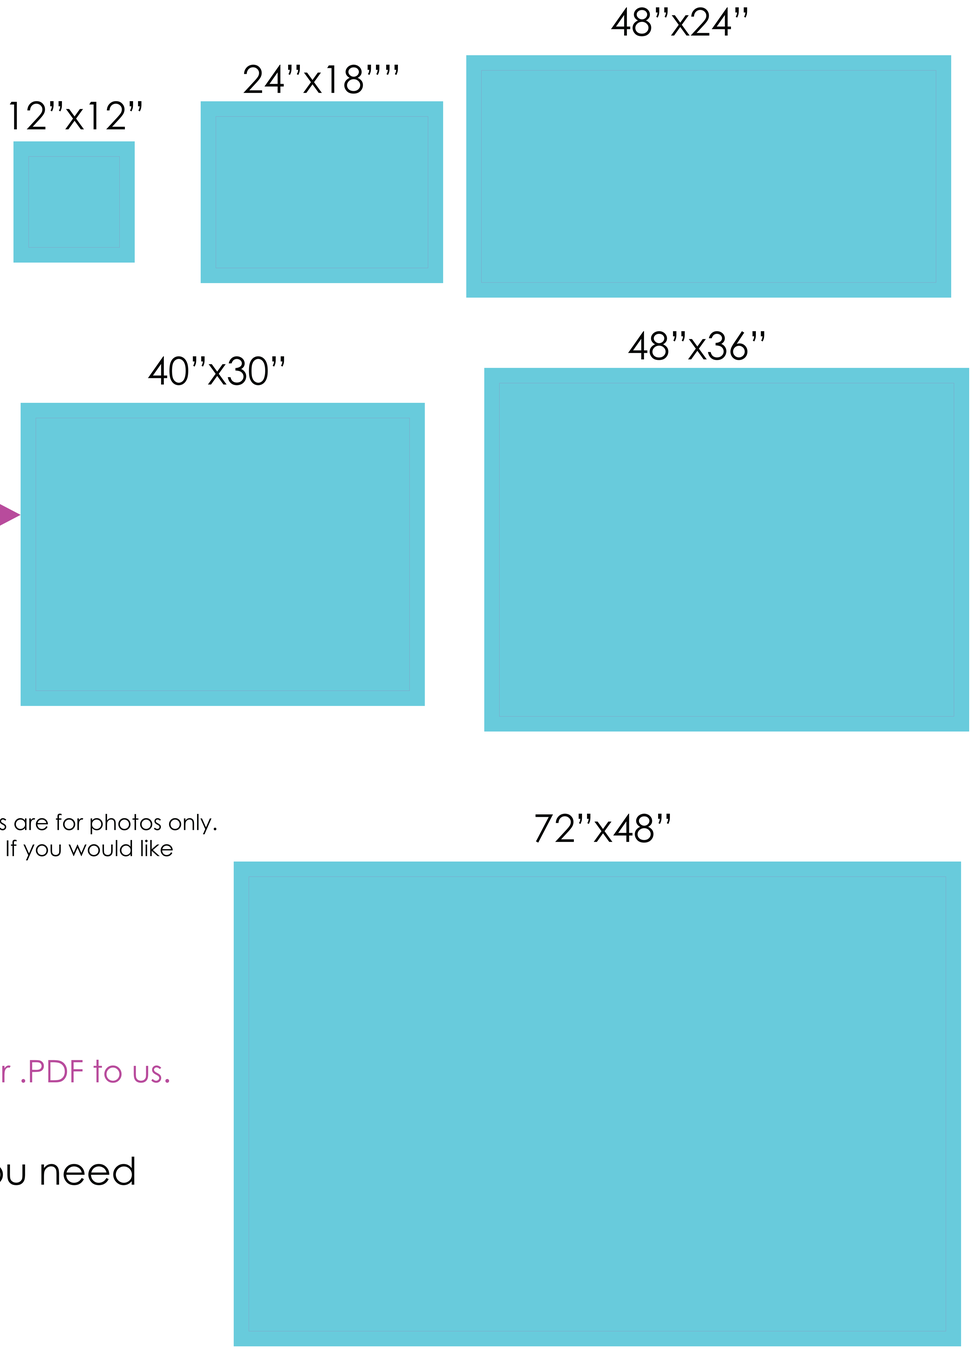
Instructions Acrylic Wall Print Templates



Submitting Files for Acrylic Wall Prints

Step 1: Choose Your Template Size

Select the appropriate template size for your project: 12x12, 24x18, 40x30, 48x24, 48x36, 72x48.
Templates can be rotated horizontally or vertically to suit your needs.
If your acrylic print is ordered with standoff wall mounts, ensure a 1.5-inch safety margin around the edges for important text or logo designs.

Step 2: Extend Your Artwork

Extend your artwork to the edges of the template box to achieve full coverage.

Step 3: Use CMYK Color Space

Submit your design in CMYK color space for accurate color reproduction.

Step 4: Prepare Fonts

Convert all live fonts to outlines or curves to ensure vectorization. This eliminates the need for font files.

Step 5: File Format

Save artwork in PDF format for best results.
For photos, use high-resolution .JPG files (300 DPI) with a file size between 10 MB and 20 MB. Larger file sizes ensure better quality. Note: .JPG files are for photos only.
For logos or designs with transparent backgrounds, save your file as a .PNG with transparency. *** Files with transparency have to be .PNG files. If you would like to see the wall behing your logo or text file needs to be a .PNG with transparency set up around your design ***

Step 6: File Naming

Name your file as: “[Your Name] Acrylic Print.” This ensures we can match it with your online order.
File Types:
- PDF for general artwork.
- JPG for photos.
- PNG for logos or files requiring transparency.

Step 7: Submit Your Files

Email: Send your files to 393components@gmail.com
Dropbox: Upload your files via the Dropbox link on our website.

Delete black instructions, extra templates,
and extra sizes and saftey margin lines before submiting your .PDF to us.
